MRS SHEPHERD IN PROVO.

Talks on Prohibition Before Audience At Garden City.

(Special to The News.)

Provo, Nov. 2.—Mrs. E. E. Shepherd of Salt Lake, spoky. In the opera house last night before a large audience on the prohibition question, under the auspices of the W. C. T. U. The stage was tastefully decorated with plants and flowers and flags and bunting and a number of temperance and prohibition motions were displayed, such as "Booze and Business Must not Mix," "Saloons and Schools Are Enemies," "Prohibition Means Progress," "We Want Gympasiums Not Saloons, etc. Mrs. J. W. Aird presided, and the meeting opened by the audience standing and singing "Prohibition is Our Mission." Invocation was offered, by Rev. George W. Longenecker.

Mrs. H. J. Hayward of Salf Lake nominated for the regislature, spoke briefly, making the polyt that the work of the women of the state should not be for themselves but for the (Special to The News.)

the suffrage typs granted, had promised the woman would vote for the moral advancement of the community. Would they do it? They now had the opportunity, and Mrs. Hayward, believed they would show they were sincere in their promises to use their right of the ballot for the protection of the boys and girls. It was the first time they had had an opportunity to vote for a great moral principle, and she did not doubt the outcome.

Mrs. Shepherd said she had come from the east to take part in the campalgn, not as a politician, because when it came to principle, she knew no party. The chance the women of Utah how had, she considered the greatest they ever had, or would have, to show their moral courage. Mrs. Shepherd charged the liquor traffic with being at the bottom of nearly all the immorality and vice and crime in the world, and gave some striking illustrations in support of her claims, and asked if the women would vote to learned this traffic. In contradiction of asked if the women would vote to legalize this traffic. In contradiction of the claims that the liquor traffic helps communities financially, Mrs. Shepherd cited that the cities that had made the greatest increase in population in the past 10 years were Pasadena, Cal.; Birmingham, Ala.; Muskogee and Oklama City, Okla., and they were all

dry towns.

Mrs. Shepherd predicted victory next
Tuesday, because she believed the
women would vote far what they prayd for-she would. The Garden City quartet rendered everal beautiful selections.

SENATOR SMOOT AT SANDY.

Addresses an Enthusiastic Political Gathering in Southern Town, (Special to The News.)

Sandy, Nov. 2.—The opera house was well filled last night with people cager to hear Senator Smoot talk on the political issues of the day. W. W. Wilson presided at the rally. C. C. Crapo, Republican candidate for the legislature, made a few remarks, and Prof. Charles Kent sung "The Flag Without a Stain." Senator Reed Smoot then took the platform, and designed the control of the c livered a beautiful culogy to the Stars and Stripes, moved by Prof. Kent's song. Beginning his discussion, Sena-

"There are good men and good women in every party. The Repub-lican party has legions of them; there are many in the Democratic party. Even in the Socialist party we find thousands of good men and good women. If it were not so, it would be impossible for a party possessing no good people to remain in existence. A party thrives on that part of its policies and theories which are good. Those which are not good are the things which weaken it.

which weaken it.

"I have the most profound respect for any man or woman who may honestly and singerely differ with me. God has given you intellects with the expectation that by the use of them you would maistain a level higher than that of the beasts of the field.

"And so, in discussing this proposition it revolves itself into the question 'What are the best principles for our homes and for our country?" And when this is established it becomes your duty to your country to vote for that which is best for every man and every woman whom you are proud to

every woman whom you are proud to eath your fountrymen.

"Now, what is best of these issues for this country of ours? Why, my friends, I maintain that it is the laws friends, I maintain that it is the laws of the country which make for its success or its failure, and I call your attention to the fact that there is no country on earth which has advanced as fast as has this, our own beloved United States. And I point again to the fact that there is not one piece of good constructive legislation upon the statute books of this country which was not placed there by the grand old party of Lincoln."

Senator Smoot also discussed the tariff

Senator Smoot also discussed the tariff And the liquor questions, going into these questions at some length. Much enthusiasm was displayed during the evening, Senator Smoot's remarks being frequently applauded. Prof. Kent sang several numbers at the close of the speech, and the meeting adjourned.

ANOTHER TRADE IS REPORTED

Rumors of Deal on Several County Offices Between "Americans" and Democrats.

ONLY FOUR PLACES AFFECTED

Story Goes That Places of County Clerk, Recorder, Treasurer and Assessor Are Ones Sought.

It is a day of deals and rumors of deals, Many charges of alleged "frame-ups" and "deals" have been pandled back and forth between the parties all during the campaign. Another one is now reported from the street, and it affects the fate of

four offices on the county ticket. The report is to the effect that a trade has been fixed up between the Democratic and "American" managers, Democratic and "American" managers, by which the offices of county clerk, county recorder, county assessor and county treasurer are to be divided between the parties to the alleged deal. The legislative ticket, according to the rumor, is not to be disturbed; neither is the office of sneriff nor those of auditor, attorney, or surveyor to be included in the arrangement, chiefly, it is said, because the "Americans" concede the election of Joe Sharp as sheriff and the fact that there is no patronage to amount to anything within the sift of the other offices. offices.

REPORTED DIVISION. How the four offices in the alleged "trade," are to be divided is not announced, but it is supposed that the "Americans" would "sitch out" for the clerkship, as that office has more printing to give out and a goodly number of deputies and appointive assistants withal and the treasurership, which carries the handling of all the sistants withat and the treasurership, which carries the handling of all the county money. This would give The Tribune gang the control of the printing and the handling of the money, by which an honest penny might be turned for the "good of the service."

This would leave the recorder and assessment to the Democrats. The re-

assessor to the Democrats. The re-corder's office is a regular hive of in-dustry, with many appointive positions to give out. The assessor at times also employs quite a number of as-

The "trade" is said to have originated at a "dinner" in a prominent

streets; but there may be no more
foundation for it than for many other
rumors of deals and bargains.

HELD IN ABEYANCE.

Charges Against Former Firemen Ma. Never be Pressed,

Case 28973 on the docket of the police court bears the names of Dan Keith and Charles Hemminger. These two men will be remembered by all save the police as the ones who dismantled the fire bell on the old tower over po-lice headquarters and sold it to a junk dealer. It will also be remembered that they at the time were charged with

grand larceny.

The document calling attention to the crime is in the "dead" pigeon hole in Clerk Canning's office. If it is ever brought to trial it will be after election. for both men are working hard among their friends to get votes, it is said. If they get enough, the document num-bered 28973 will forever remain a mere piece of paper that in years to come may be of interest in recalling that two bold thieves stole the historic old fire hell and sold it.

GIRL IN TROUBLE.

Gerald Jeffs Arraigned in Police Court

On a Serious Charge. Gerald Jeffs, used to be a driver of water wagon. He drove the aqua pura distributor in the vicinity of Capitol hill. As he turned on the gushing torrent that settled the dust and other things on the streets he passed over he often saw Irene Grow at her home 41 north Capitol hill.

One day Irene wrote a note that was delivered to Jeffs as he sat tightly on the highest seat of the water wagon, and that note proved his downfall, for today he was arraigned in police cour

charged with having been criminally familiar with the Grow girl.

From the testimony introduced to-day it would seem that the girl is a very wayward piece of humanity for the allegations against her actions made by Atty. James Hamilton, if true, show she has been guilty of some very indiscreet actions. The case was continued until Saturday to give the defense an opportunity of collecting more evidence.

MUST GO TO SCHOOL.

Superintendent Christensen Affirm That Law Will be Enforced.

After Friday, Nov. 4, but 30 weeks of the school year remain, and it is then mandatory that all schoolchildren be tween the ages of 8 and 16 be enrolled at once and attend regularly to satisfy the requirements of the law. Supt. D. H. Christensen of the law. Supt. D. H. Christensen of the city schools said this morning that the school law, which was approved March 9, 1905, would be carried out to the letter and that all children, not now in school, would be compelled to attend for the next 30 weeks.

The law covering this matter, follows:

streeter and distribute the packages among the passengers. On each packages age of the stuff was a sign telling of the terrible affiletion they were suffering from. It generally got the money and they were reaping a rich harvest until their arrest last night.

RAILROAD NEWS

VALIDATION REVENUES.

Over \$290,350 Paid by Passengers on

Pacific Coast in Eight Years. Wasnington, Nov. 2 .- Over \$200,350 must have been paid to railroads for the validation of tickets at the 20 valida-tion agencies on the Pacinc coast dur-ing the period from 1901 to 1909, inclusive, according to the interstate commerce commission, but these runds are now here reported as part of the passenger receipts of rauroads handling the business.

"This is clearly wrong," says the This is clearly wrong, says the in-terstate commerce commission in the course of the decision on validation matters announced yesterday, in which the commission avoided passing on the question of its jurisdiction over vali-dation matters and failed to find any pooling of freights or divisions of carn-ings.

The commission says that during the period mentioned, the 29 Pacific coast agencies validated 580,074 tickets and confiscated 3372 because not pre-sented by the proper persons and that but for the validation requirements, the instances of improper use of these tickets doubtless would have been much more numerous. The commission be-lieves that purchasers should always be informed on the face of the ticket of the amount of the validation fee. It also believes that validation incon-veniences could be lessened. For in-stance, a passenger leaving in the morn-ing might be allowed to validate his ticket the night before.

LOST WHAT THEY GAINED.

Chicago, Nov. 1.—After winning a fight for lower freight rates by two years' constant effort, shippers are to be pushed back to their starting point through action taken by the railroads, because the limit of the interstate commerce commission's control is about to expire.

The interstate commerce commission The interstate commerce commission law states that a decision of the commission shall last two years and rates may then be scheduled for change again. Two years ago, Nov. 10, the commission gave a decision favoring the shippers in the west. The matter was then taken into the courts by the railroads and last week the supreme court gave its decision, also favoring the shippers.

Now the railroads have filed schedules

with the commission setting the rates back to the old point. The rates affected were included in the Missouri river rate case.

A YEAR'S CASUALITY RECORD Washington, Nov. 1.—"Killed, 3,084," injured, 82,374."
This is the casualty record of the railroads in the United States during the year ended June 30 last, according

to the interstate commerce commission. It is an increase of 1,013 in the number killed and 4,045 in the number injured, over the previous year's figures.

There were 5,861 collisions, killing 433 people and injuring 7,755, and daministic of the collisions of the c 433 people and injuring 7,755, and dam-aging railroad property \$4,629,279. In the year's 5,910 derailments, 340 per-sons were killed, and 4,814 injured. During the last three months of the year, the total injured was 20,650.

MEDICAL EXPERTS CROSS-EXAMINED

Effort to Prove Mercury Did Not Cause Mrs. Vance's Death.

THE TRIAL AT CRUCIAL STAGE

Today's Testimony Means Life or Death to Man Accused of

Murdering His Wife.

The Vance murder trial has reached what is considered a crucial stage in estimony taking in that the state is low attempting to prove that Mary Vance came to her death by mercuria poisoning. Attorneys for the defense ire concentrating their efforts in an attempt to refute the testimony of witnesses for the state and to show that the woman died as a result of taking oil of savine or some other drug with an object.

Dr. A. A. Kerr, the physician called

in to attend Mrs. Vance on Nov. 27, testified that in his opinion her death was due to mercurial poisoning. Dr. Kerr said that he was informed over the telephone on Nov. 2, that Mrs. Vance was seriously ill and that he sent down some medicine to relieve the distressing condition reported. In the evening he went down to the Vance home, he said, and found her vomiting, and comsaid, and found her vomiting, and com-plaining of severe pains. He said that she continued to get worse and that he sent the ambulance for her on the fol-fowing day and she was taken to St. Mark's hospital. The witness testified that she complained about the condi-tion of her mouth at the hospital and that there she had a number of hemorr-lages from the mouth and gums and that there she had a number of hemorrhages from the mouth and gums and also complained of pains. On exanination at the hospital he said that he found a large black and blue mark on the inner part of the right thigh. He gave it as his professional opinion that she came to her death from mercurial poisoning and that it was also evident that she had received bodily injuries.

Associated with the counsel for the defense as expert authority is Dr. Albert Hansen, and it is evident that medical authorities have been examined

medical authorities have been examined at length with the view to discovering at length with the view to discovering symptoms for mercurial poisoning different to those described by Dr. Kerr. On cross-examination, A. J. Wober started to read from a well known medical authority on poisoning, asking the witness if he did not concede the symptoms as given to be right.

"You can't do that," interposed Judge T. D. Lewis. "If the court permitted that, it would not be six months until books would be printed especially, some books would be printed especially, some for the prosecution and some for the defense." The court ruled that the attorney might frame his answers from the book, but that he could not read the subject matter to the jury.

According to this authority the most prominent of the symptoms of mercurial poisoning were constriction of the throat, foaming at the mouth and bloofly frothing, great thirst and vomiting. Dr. Kerr said that he had not noticed the first symptoms in Mrs. Vance.

The witness was on the stand at 12:10 o'clock, when court adjourned until 2 o'clock.
